

I am sending this message to request that NAB petition 04-160 be wholly rejected by the FCC. I am a subscriber to XM Satellite Radio, and as such benefit from the services provided by that subscription. Since I am a paying customer, I should have the right to choose what programming myself and my family can listen to, not a PAC like the NAB. The services and programming I purchase are of a variety and quality that is otherwise unavailable without my subscription. To allow an organization such as the NAB to dictate what I am able to purchase and listen to is akin to allowing television cable operators to interfere with my right to purchase television programming of my choice. It is simply wrong. I employ you as an organization of the people to do the right thing and ensure that our freedoms and decisions as consumers are left in our control. Thank you.
